TESTIMONIALS

Monsenhor enVide neFelibata is a talented artist who, based on his commentary, is more interested in the fine art aspects of the Eternal Network than, for instance, the performance dimension or Trashpo. I am certainly thrilled to have this example of his work!! But I also note that in this and in other works of his I have seen, I detect a sense of humor, iconoclastic tendencies and some movement toward conceptualism. In short, he has the ability (and is) working in a wide range of styles and orientations.

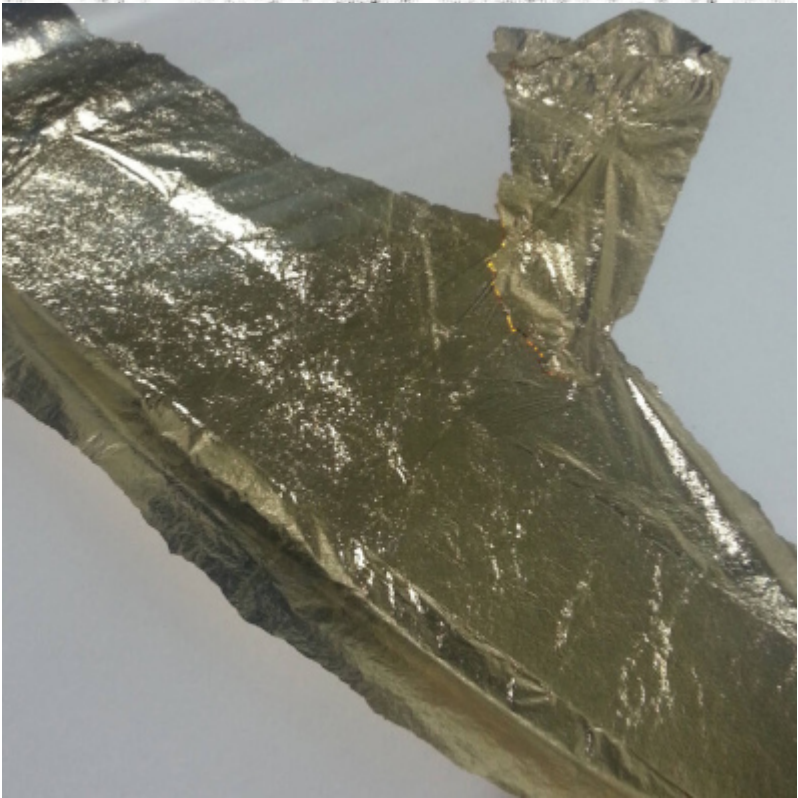

One of the main attractions of "Shower" is the superb gilding, which I do not believe I was able to capture in a scan. Fortunately, Monsenhor enVide neFelibata has an excellent blog where this edition is documented.
